

About the author

John Skerritt is an entrepreneur, speaker, activist, and expert on smoking pot.

Born in Montclair NJ. Youngest of three children.

Raised with his brother Daniel and sister Roberta by their single mother in Paterson NJ during the riots of the sixties. Living in the drug infested area, and always feeling anxious, he became interested in Marijuana at a young age. A non-violent person living in a violent neighborhood he escaped Paterson by the age of 21, taking with him the toughness of a survivor. He found success in the computer industry and started a consulting company in the nineties. Wanting to achieve better customer service he went on to study communications. As he gained free time he began to use his knowledge of people to help others on a more regular basis. This led to an epiphany in 2005 which has set him on a mission. This book is the outward beginning of that mission, to help others improve their lives and get spiritually focused. Now a self proclaimed communications expert and Marijuana spiritual guru, he has written this Ebook for you, full of needed information about Marijuana. Mr. Skerritt is available for lectures; if you have a subject centered on pot he can write a presentation and deliver it with humor and professionalism.
